The Annals of
Regional Science
© Springer-Verlag 1992

Contents of Volume 26

Anselin L, Getis A: Spatial statistical analysis and geographic information systems 19

Beckmann MJ: Income and expenditure in a spatial economy 199

Beguin H: Christaller's central place postulates. A commentary 209

Billot A, Thisse J-F: Claude Ponsard (1927–1990). A biographical essay 191

Buckley PH: A transportation-oriented interregional computable general equilibrium model of the United States 331

Can A: Residential quality assessment. Alternative approaches using GIS 97

Cooke SC → Holland D

Dendrinos DS, Rosser JB Jr: Fundamental issues in nonlinear urban population dynamic models. Theory and a synthesis 135

Eberhardt S → Grossmann WD

Fischer MM, Nijkamp P: Editorial 1

Fischer MM, Nijkamp P: Geographic information systems and spatial analysis 3

Flowerdew R, Green M: Developments in areal interpolation methods and GIS 67

Fujita M, Takahashi S: Regional income disparity and fiscal-monetary policy. An interregional macroeconomic model of Japan 231

Getis A → Anselin L

Green M → Flowerdew R

Greenberg M, Hughes J: The impact of hazardous waste Superfund sites on the value of houses sold in New Jersey 147

Greenhut JG, Greenhut ML: Alternative uses of spatial microeconomics 257

Greenhut ML → Greenhut JG

Grossmann WD, Eberhardt S: Geographical information systems and dynamic modelling. Potentials of a new approach 53

Heaps T, Munro JM, Wright CS: A location model of grain production and transportation 111

Holland D, Cooke SC: Sources of structural change in the Washington economy. An input-output perspective 155

Hughes J → Greenberg M

Luna HPL → Mateus GR

Mateus GR, Luna HPL: Decentralized decision-making and capacitated facility location 361

Munro JM → Heaps T

Nijkamp P → Fischer MM

Openshaw S: Some suggestions concerning the development of artificial intelligence tools for spatial modelling and analysis in GIS 35

Priyarsono DS: Welfare implications of entry deterrence in a spatial market 319

Rosser JB Jr → Dendrinos DS

Rouwendal J: A note on the efficiency of stochastic market equilibria with rationing 177

Roy GG, Snickars F: Computer-aided regional planning. Applications for the Perth and Helsinki regions 79

Sasaki K: Trade and migration in a two-city model of transportation investments 305

Scotchmer S, Thisse J-F: Space and competition. A puzzle 269

Snickars F → Roy GG

Sonis M: Analytical structure of discrete choice models. Intervention of active environment in the choice process 349

Steinnes DN: Measuring the economic value of water quality. The case of lakeshore land 171

Takahashi S → Fujita M

Thill J-C: Spatial duopolistic competition with multipurpose and multistop shopping 287

Thisse J-F → Billot A

Thisse J-F → Scotchmer S

Wright CS → Heaps T
